FEATURES

With our unique tread compound, we have revolutionized the sport of cycling. With the legendary **BlackChili Compound** we have answered the eternal question of the best balance of grip and rolling resistance for cycling. The latest polymers as well as specially developed carbon black particles and filler materials guarantee unique performance, be it on a road, gravel or a mountain bike, for time trialling or downhill.

The revolutionary approach in cycling. Embedded in the tire construction the **Active Comfort Technology** absorbs vibrations and smoothens your ride.

Vectran is spun from liquid crystal-polymer. This way a thermoplastic, multiple-thread yarn is created. As a comparison: This partially crystalline fabric is more cut-resistant than aramide and its tensile strength is five times higher than that of steel. A Vectran breaker is lighter, more flexible and effective against cuts than a comparable nylon breaker. Without effecting rolling resistance.

Lazer Grip, to make you one with the road. The lazered micro profile structure expands over the tire's shoulder and provides outstanding cornering.

CONTI KNOWLEDGE

Tubeless Ready:

For initial mounting we recommend to use at least 30 ml of Conti RevoSealant per tire. Then spin the tire (wheel) to spread the Conti RevoSealant inside of the tire and pump to the allowed maximum pressure. Check the pressure before the next ride and adjust to your desired PSI.

This tire is Hookless compatible to its limited max. pressure. Please check wheel instruction and tire packaging for detailed information.
